(i) Group Performance

For the current quarter under review, Group revenue increased by RM0.6 million (0.02%) to RM2,923.1 million as compared to RM2,922.5 million in the same quarter last year, mainly due to higher revenue from Internet and multimedia, other telecommunication related services and non-telecommunication related services partially offset by reduction in voice and data services.

Internet and multimedia services registered 8.8% higher revenue of RM918.8 million in the current quarter from RM844.5 million in the corresponding quarter last year which was mainly due to increase in UniFi customer base of 921,000 at the end of the current quarter compared to 793,000 at the end of corresponding quarter last year.

Operating profit before finance cost decreased by RM144.5 million (32.2%) to RM304.0 million from RM448.5 million recorded in the same quarter last year due to higher operating costs which includes accelerated depreciation of WiMAX assets and write-off of dismantled sites. There were also minimal foreign exchange losses on international settlement in the current quarter compared to a significant net gain in corresponding quarter last year.

Group profit after tax and non-controlling interests (PATAMI) decreased by RM7.0 million (4.2%) to RM159.8 million from RM166.8 million in line with the decrease of operating profit before finance cost.

(ii) Segment Performance

Mass Market

Revenue increased by RM76.3 million (6.3%) from RM1,220.3 million to RM1,296.6 million in the current quarter mainly due to higher cumulative UniFi customers of 904,000 as compared to 779,000 as at the end of corresponding quarter last year and continuing increase in the number of buys of Premium Channels and Video-on-Demand (VOD) despite decline in voice. The current quarter gain of RM75.3 million was mainly due to lower operating costs compared to corresponding quarter last year.

WACC = Weighted Average Cost of Capital

Economic Profit (EP) is a yardstick to measure shareholder value as it provides a more accurate picture of underlying economic performance of TM Group vis-à-vis its financial accounting reports, i.e. it explains how much returns a business generates over its cost of capital. This is measured by the difference of NOPLAT and Economic Charge.

TM Group recorded Economic Loss in the current quarter and higher Economic Loss in the current financial period to date due to lower NOPLAT which resulted from lower EBIT. The lower economic charge in the current quarter and financial period is attributed to lower WACC arising from lower cost of equity. Higher AIC was mainly due to increase in property, plant and equipment and other non-current receivable balances.

The current quarter Group revenue decreased by 4.0% (RM122.3 million) to RM2,923.1 million as compared to RM3,045.4 million recorded in the second quarter of 2016 primarily due to lower revenue from telecommunication related services, data and voice.

Operating profit before finance cost increased to RM304.0 million from RM280.0 million recorded in the preceding quarter due to the higher reduction in operating costs which included lower bad debt expenses compared to the reduction in revenue.

The above increase in operating profit before finance cost resulted in an increase of Group PATAMI from RM139.5 million in the preceding quarter to RM159.8 million.

3. Prospects for the Current Financial Year

For 2016, Malaysian Institute of Economic Research (MIER) maintains Malaysia's real GDP growth at 4.2%. As external sector remains sluggish due to the global slowdown, more weight is given to domestic demand to steer growth. As for 2017, real GDP growth is expected to edge up, registering growth of between 4.5 – 5.5%. (Source: MIER Economic Outlook, 18 October 2016).

Entering the fourth quarter of 2016, TM is further strengthening its position as Malaysia's Convergence Champion by supporting the Government's aspiration to make high speed broadband access more affordable for the Rakyat, acknowledging the importance of digital connectivity to revolutionise Malaysia's economic activity. In October 2016, TM announced its Broadband Improvement Plan for 2017, which will benefit TM's home customers in the High Speed Broadband (HSBB) and Sub-urban Broadband (SUBB) project areas. Under the initiative, eligible customers (subject to technical availability) will be upgraded to the next best plan in phases starting from January 2017. In addition, TM will also introduce a new greater value broadband package offering for non-UniFi customers in 2017. To date, TM has more than 2.37 million broadband customers, of which 921,000 are UniFi customers. More than 62% of TM's broadband customers currently subscribes to 4Mbps and above of which 75% are on 10Mbps and above.

In this quarter, TM signed with certain property developers to work closely to strengthen the existing telecommunication and ICT infrastructure and facilitate the deployment of Smart Services, converged telecommunications and ICT with the deployment of a comprehensive Smart Services ecosystem for their developmental projects. With the availability of connectivity, ICT and Internet of Things (IoT) solutions integrated in local property developments, we will be able to deliver an enhanced digital lifestyle to more Malaysians.

We are also pleased with the recent launch of Webe on 30th September 2016, which introduced one simple plan for unlimited calls, text and data usage. As a start, a reduced price of RM79 per month has been made available to everyone for a limited period. Webe's launch extends TM's promise of 'Life and Business Made Easier' into the mobile space and it perfectly fits into our converged suite of offerings.

We look forward to continue our journey this year as we embrace our transformation focusing on convergence, going digital, innovation and productivity. We will continue to boost our efforts to offer relevant fixed and mobile connectivity services, ICT and smart services solutions to cater for individual lifestyles of Malaysians and businesses alike, in line with our vision "To Make Life and Business Easier, for a Better Malaysia".
