

highlights of the year 2001

TELEKOM MALAYSIA BERHAD

Telekom Malaysia launched its Internet Data Centre or TM IDC, housed at its premises in Cyberjaya. TM IDC will help propel Malaysia towards becoming the regional hub for Internet and multimedia operations in the Asia Pacific Region. Targeted at Multinational Corporations (MNCs), Application Service Providers (ASPs) and Internet Service Providers (ISPs), TM IDC provides a comprehensive range of telecommunications and Internet infrastructure, as well as server and web hosting services.

Telekom Malaysia signed an agreement with Prism Holdings Limited of South Africa, to establish a new joint-venture company named Telekom Technology Sdn. Bhd. (TTSB). The company will provide and operate a national secured electronic transaction switch for the country. The synergy between TM's vast customer base, its extensive network and Prism's technical expertise, will open the door to comprehensive online transactions and home shopping services, going beyond bill presentation and payment.

highlights

Telekom Malaysia played host to the 11th Asian Multimedia Forum (AMF) Plenary Meeting. AMF is a non-profit organisation founded in 1997. Its main objective is to contribute to the development of multimedia services and technology in Asia. During the meeting, participants shared their views on regional multimedia policy and regulations, new carrier initiatives, multimedia developments, e-commerce and IP telephony. Cik Suriah Abd. Rahman, Deputy Secretary General I, Ministry of Energy, Communications and Multimedia officiated at the meeting.

Telekom Multimedia created another first by launching its inaugural Web Application Service – through the Netmyne Exchange 2000 (Netmyne E2K). Netmyne, established in 1999, currently provides hosting services to more than 3,000 customers. Services include web, server, commerce and media. With this launch, Netmyne has moved into its next phase as a Web Application Services Provider.

The Company launched its second TMWiLL (Wireless in Local Loop) service in the country for the benefit of residents in Seberang Chenor, Pahang. TMWiLL is a Wireless technology that enables telephone service to be made available in rural areas where accessibility by normal fixed lines is difficult and uneconomical. The first TMWiLL service was launched in Jeli, Kelantan, in April 1999.

2001

Y.B. Datuk Amar Leo Moggie, Minister of Energy, Communications and Multimedia launched BlueHyppo.com, Malaysia's very own lifestyle portal. The content is geared towards becoming a one-stop destination for surfers, offering the latest in finance, sports, entertainment, career tips and more. Since the launch, BlueHyppo.com has gained huge publicity through an extensive advertising and promotion campaign to build awareness and imprint the brand image on potential customers.

highlights of the year 2001

TELEKOM MALAYSIA BERHAD

Telekom Malaysia introduced its 2nd generation VSAT Network. VSAT refers to the Very Small Aperture Terminal digital communications service, transmitted via satellite-based earth stations. The system is being rapidly adopted as a cost-effective and reliable means of providing Internet, voice, fax, data and multimedia services to corporations, the Government and consumers.

The launch of TMnet Streamyx marked the Company's entry into the much-hyped consumer broadband market. Using xDSL technologies, the service allows Internet access speeds of up to 2.0 Mbps. Targeted at the residential, Small Office Home Office (SOHO) and Small and Medium Enterprises (SME) markets, TMnet Streamyx is expected to further enhance TMnet's dominance in the local ISP scene.

highlights

Telekom Malaysia signed the fifth Collective Agreement with the National Union of Telekom Employees (NUTE). The agreement, valid for three years (2001 – 2003) outlined the terms and conditions of service for 21,500 non-executive employees. Chief Executive, Y.Bhg. Dato' Dr. Md Khir Abdul Rahman signed on behalf of the Company while Encik Mohamed Shafie BP Mammal signed on behalf of NUTE. The signing of the agreement was witnessed by Y.B. Datuk Amar Leo Moggie, Minister of Energy, Communications and Multimedia.

12 May 2001

The Company launched telecommunication services in several remote areas of Sarawak, including Kanowit, Julau and Serian. The communities in these areas are now able to enjoy Internet, voice, fax, data and multimedia services. Access is provided using highly sophisticated solar-powered wireless technologies, such as Wireless in Local Loop (WiLL), satellite-based Very Small Aperture Terminal (VSAT), and Very High Frequency (VHF) technology.

14 June 2001

Telekom Malaysia became an Official Partner of the Kuala Lumpur XXI SEA Games 2001 with a contribution of RM3.8 million to the Organising Committee of the Games. The Company was responsible for providing telecommunications and broadcasting infrastructure services. These services were crucial to the smooth running of this prestigious sporting event. The Company's contribution reflects its commitment in supporting the Government's efforts in projecting Malaysia as a nation capable of organising world class sporting events.

4 July 2001

Y.B. Datuk Tan Chai Ho, Deputy Minister of Energy, Communications and Multimedia, accompanied by Y.Bhg. Dato' Dr. Halim Shafie, Secretary General of the Ministry, Cik Suriah Abd Rahman, Deputy Secretary General 1 and senior officers from the Ministry and the company, visited Telekom Malaysia's Customer Assistance Service Centre in Seremban. The Customer Assistance Service Centre in Seremban is one of nine Emergency (999) Service Centres of Telekom Malaysia in the country. During the visit, the Deputy Minister and his entourage were briefed on the Emergency (999) Service and taken on a tour of the Service Centre. Mr. Tan Chian Khai, Senior Vice-President, Consumer and Business TM TelCo, Telekom Malaysia briefed the Deputy Minister and his entourage.

10 July 2001

Pusat Pungutan Zakat (PPZ) today officially joined VADS's e-contribution community in offering the nation's first Islamic electronic link service targeting at corporations. The RM5 million Business to Government (B2G) application service has been created to provide on-line communication and data transmission between statutory organisations, agencies and corporations.

14 July 2001

Telekom Malaysia signed an agreement on Leased Lines Services with the Putrajaya Federal Government Administration Centre for a Putrajaya Campus Network. Phase 1 of the Network, linking the Prime Minister's residence and Parcels B, C, and E has been completed. The contract value for this project is RM8,190,000 spread over a period of three years.

highlights

31 July 2001

Telekom Malaysia invested RM45 million for the development of an e-business solution called COINS iOFFICE, targeted at small and medium-sized industries (SMI). The solution, jointly developed with Sun Microsystems Malaysia Sdn. Bhd., involved almost two years of research. COINS iOFFICE is a communication tool that gives access to both voice and data from one source via a desktop personal computer or laptop. It also allows businesses to make phone calls, send and receive faxes and e-mail messages as well as provide access to the Internet. The service is backed by Telekom Malaysia's Corporate Information Superhighway (COINS) infrastructure.

Telekom Malaysia launched its TMWill-Wireless in Local Loop service, which utilises radio frequencies instead of the usual copper wire network, to provide communication services for the residents of Sekinchan, Selangor. The service was launched by Y.A.B. Dato' Dr. Mohamad Khir bin Toyo, Menteri Besar of Selangor. This is the first system in Selangor and the third in the country after its initial launch in Jeli, Kelantan in April, 1999. The second service was launched in Temerloh, Pahang early this year.

3 August 2001

2001

7 August 2001

With a contribution of RM150,000, Telekom Malaysia became the main sponsor of the inaugural Asia Pacific Information & Communications Technology (APICT) Awards Programme, organised by the Multimedia Development Corporation (MDC). In addition, the Company also sponsored the 'Best of Education Application' Award. Multimedia University, a wholly-owned subsidiary of Telekom Malaysia outclassed ten other nominees from seven countries by winning this Award with its Multimedia Learning System.

Telekom Malaysia signed an agreement with India's Videsh Sanchar Nigam Limited (VSNL) for the establishment of a COINS Global node to provide Frame Relay service in India. The business partnership offers seamless and complete management of end-to-end service with the flexibility of Single End Billing. The service will be beneficial for multinational companies (MNCs) operating from Malaysia with bases in India and vice versa.

Telekom Malaysia signed a Partnership Agreement with Computer Access Private Limited (CAPL) to jointly coordinate in the areas of Business Systems Design and Implementation, and to provide Operational and Maintenance support for customers in India.

28 August 2001

highlights of the year 2001

TELEKOM MALAYSIA BERHAD

Telekom Malaysia launched its BlueHyppo.com SEA Games XXI 2001 Streaming service in conjunction with the South East Asian Games held in Kuala Lumpur. Streaming is the latest broadcasting technology powered by Netmyne, a service provided by TM Multimedia. The service offered includes Live Streaming and Media-On-Demand via the Internet which can be viewed through Telekom Malaysia's BlueHyppo.com lifestyle portal. Y.B. Datuk Amar Leo Moggie, Minister of Energy, Communications and Multimedia, graced the event.

28 August 2001

The closing ceremony for the SEA Games XXI was held at Stadium Nasional Bukit Jalil. The Prime Minister, Y.A.B. Dato Seri Dr. Mahathir Mohamad was the Guest of Honour at this ceremony. To ensure the smooth running of the SEA Games, Telekom Malaysia provided telecommunications facilities and a Business Centre.

17 September 2001

highlights

21 September 2001

Telekom Malaysia launched its TM CDMA Wireless service in Bau, Kuching, Sarawak. Code Division Multiple Access (CDMA) utilises digital wireless access technology operating on a 800 Mhz frequency band. The service was launched by Y.B. Dr. Tiki Lafe, Member of Parliament for Mas Gading, who is also the Deputy Minister of National Unity and Community Development.

Sarawak is the first state to enjoy TM CDMA Wireless Service. This is the second CDMA project launched in Sarawak, the first being launched by Y.B. Datuk Amar Leo Moggie on 9 September 2001 at Rumah Jungang, Sibiu.

13 October 2001

Telekom Malaysia signed an agreement with Country Heights Holdings for the provision of High-Speed Broadband Access (HSBA) to homes in Country Heights. This technology enables existing telephone lines to carry voice and high speed data connections through either Internet or LAN connections simultaneously. This high speed data connection can cater for new multimedia application services. The contract is valued at RM700,000 and the project is expected to be completed in 2004.

13 October 2001

Telekom Malaysia celebrated 18 high achieving scholarship holders in an award presentation ceremony held at Menara Kuala Lumpur to recognise exceptional scholarship and extra-curricular achievements. These Yayasan Telekom Scholars were presented RM1,000 cash awards, an appreciation certificate as well as a memento in recognition of their achievements.

15 October 2001

The Calibration Laboratory of Telekom Research & Development Sdn. Bhd. (TM R&D) was accredited the International Standard ISO/IEC Guide by the Department of Standards Malaysia under a national unified laboratory accreditation scheme, known as Skim Akreditasi Makmal Malaysia (SAMM).

In recognition of laboratories that have been successfully accredited to the International Standard, the Department of Standards Malaysia held a ceremony to present the awards to the laboratories.

The accreditation is an international recognition of the technical competency of TM R&D Calibration Laboratory in generating technically valid calibration results. This accreditation also fulfilled the requirements of the European Standard EN45001 and relevant requirements of the International Standard ISO 9001/2. The accreditation covers both Permanent and Mobile laboratories.

1 November 2001

Telekom Malaysia signed an agreement with Hospital Universiti Kebangsaan Malaysia (HUKM) for the Bulk Payment System. The system involves 99 telephone accounts at HUKM Bandar Tun Razak, Fakulti Perubatan Kuala Lumpur and Hospital Bersalin Hulu Langat. With this new system, all billing and payments are processed on a particular date and payment will be made either by cheque or by bank draft.

Telekom Malaysia won 4 awards in conjunction with the Citra Wangsa Malaysia Awards for the Private Sector, organised by Dewan Bahasa dan Pustaka. The awards were:-

- i) Citra Award for Private Sector Annual Report 2000 (Jury Award)
- ii) Citra Award for Billboard Advertisement 2001 (Jury Award)
- iii) Citra Award for TV Advertisement 2001 (Jury Award and Grand Award)

The Award ceremony was held at Auditorium Angkasapuri.

10 November 2001

highlights

As a responsible corporate citizen, Telekom Malaysia contributed 60 boxes of Hari Raya goodies worth RM3,000 to the Ministry of Defence to be distributed to our troops serving on the front-lines. This contribution was presented by Y.Bhg. Dato' Ir. Md. Radzi Mansor, Chairman, Telekom Malaysia to Y.B. Dato' Seri Najib Tun Abdul Razak in a ceremony held at the Ministry of Defence.

3 December 2001

Telekom Malaysia once again joined hands with the Royal Malaysia Police in the launching of the road safety campaign known as 'OPS SIKAP' in conjunction with the festive season. The Campaign was launched at the Exhibition Centre, Mid Valley Megamall, and was officiated by the Inspector General of Police, Y.D.H. Tan Sri Norian Mai. Chief Executive Y.Bhg. Dato' Dr. Md Khir Abdul Rahman, represented Telekom Malaysia at the ceremony.

Telekom Malaysia handed over 10,000 posters on road safety and 75 mini canopies to PDRM as part of its contribution towards the campaign.

A consortium of leading telecommunication companies launched the Asia Pacific Cable Network 2 (APCN 2), the world's first pan Asian submarine ring system.

The APCN 2 System comprises 19,000 km of submarine cable, connecting China, Hong Kong, Japan, Korea, Malaysia, Philippines, Singapore and Taiwan. Consortium members have invested over US\$1 billion in the project, which uses the most advanced fibre optic technology deploying state-of-the-art Dense Wavelength Division Multiplexing (DWDM) technology to ensure an eventual design capacity of 256 t/bits.

2001

Telekom Malaysia launched the automatic vehicle location service (TM AVL), allowing users to monitor the location and status information of vehicles from remote locations through the Internet. The service was launched at Menara Kuala Lumpur by Y.Bhg. Dato' Dr. Md Khir Abdul Rahman, Chief Executive.

TMAVL is a technology that allows the current position of moving vehicles or any mobile assets to be tracked using a combination of Global Positioning System (GPS), network communications and geo-spatial systems technology. TM AVL service was introduced by TM Geomatics, a division in Telekom Malaysia that specialises in Geo-Spatial Information Technology (GIT).

CARING FOR THE SHAREHOLDERS

27 February 2001

Telekom Malaysia registered a revenue of RM8,816 million for the year ended 31 December 2000, an increase of 12.5 per cent over 1999. Net profit of the Group climbed 55.7 per cent to RM1,271 million. The increase was mainly due to customer growth in the telephony and cellular sectors as well as data services. Telephony services contributed 69 per cent of the operating revenue, while cellular and data accounted for 12 and 10 per cent respectively.

Corporate & Social Responsibilities

15 May 2001

The Company's 16th Annual General Meeting and Extraordinary General Meeting was held at the Mutiara Hotel, Kuala Lumpur. It was chaired by Y.Bhg. Dato' Ir. Md. Radzi Mansor, Chairman of Telekom Malaysia. The Chief Executive, Board of Directors and Management Team were also present. Approximately 800 shareholders and proxies attended the meeting, in which several resolutions were passed including the declaration of a 10 per cent dividend.

CARING FOR EMPLOYEES

16 January 2001

Telekom Malaysia treated its employees to a Hari Raya celebration at its Headquarters in Kuala Lumpur. This annual gathering was aimed at enhancing relationships between management and staff as well as amongst all employees of the Company.

18 May 2001

In keeping with its tradition as a caring organisation, Telekom Malaysia held a dinner in honour of its 102 retirees in Langkawi. Fondly known as “Jasamu Dikenang” the dinner was the culmination of a three-day programme, which included tours and shopping sprees on the island. In his speech, Telekom Malaysia Chairman, Y.Bhg. Dato’ Ir. Md. Radzi Mansor, expressed deep appreciation for contributions made by Telekom Malaysia’s retirees during their service with the Company.

21 May 2001

TIARANITA, an organisation for wives and female employees of Telekom Malaysia, organised a treasure hunt known as Tiara Charity Hunt 2001. 400 participants were flagged off from Menara Telekom by the Chief Executive Y.Bhg. Dato’ Dr. Md Khir Abdul Rahman. Part of the proceeds from the event was donated to various charity organisations.

CARING FOR CUSTOMERS

16 May 2001

TMnet reaffirmed its position as the leading Internet Service Provider (ISP) in the country when its subscriber base passed the one million customer mark. The lucky one millionth customer was honoured in a ceremony at Menara Kuala Lumpur. Launched in July 1996, TMnet saw its customer base grow by leaps and bounds, and by the third year of operations, became the country's largest ISP with more than 350,000 customers. In addition to providing basic Internet access, TMnet also introduced various multimedia-related services, including TMnet EastGate, Netmyne, BlueHyppo.com and TMnet Streamyx.

18 May 2001

Customers can now make free calls with the TMFreeWay service. In exchange for listening to 15-20 seconds of advertisement, the customer is entitled to 2 minutes of complimentary talk time, which would translate into tremendous savings. During the trial run, the service attracted some 50,000 subscribers. The number is expected to increase to 300,000 by year-end.

15 June 2001

In an effort to boost customer service, Telekom Malaysia's Customer Assistance Service Division (CAS) conducted a three-month campaign to enhance the quality of service rendered by its Customer Service Assistants in Call Centres nationwide. CAS operates 4 categories of call centres, namely the Directory Information Centre (103), International, Domestic and Emergency Centres (108, 101 and 999), Sales and Service Centres (1050) and Teleservices Centres (104 and 1-800-88-8000).

16 August 2001

Telekom Malaysia awarded Motorola Inc. (NYSE:MOT), a three-year contract valued at RM551 million, to deploy a nationwide Code Division Multiple Access (CDMA) 2000 1X network. The contract is for the setting up of a CDMA network, which converges fixed wireless, mobile and Internet services. Investment by Telekom Malaysia in CDMA is a step towards narrowing the digital divide between the rural and urban areas.

The signing ceremony was witnessed by Y.B. Datuk Amar Leo Moggie, Minister of Energy, Communications and Multimedia.

Corporate & Social Responsibilities

20 August 2001

Telekom Malaysia today launched its TMWiLL – Wireless in Local Loop Service in Kampung Tarat Mawang, Serian, Sarawak. Y.B. Tan Sri Datuk (Dr.) Alfred Jabu Anak Numpang, Deputy Chief Minister of Sarawak, who is also the Minister of Rural and Land Development, Sarawak, officiated at the launch. TMWiLL is one of the Company's latest wireless technologies, which utilises radio frequencies for communication purposes including telephony, facsimile, data and Internet. The service is connected to the PSTN network nationwide.

15 September 2001

Telekom Malaysia's "Hello & Menang" Sejuta Contest received tremendous response. More than 600,000 entries were received from customers of Telekom Malaysia's residential fixed lines, TMTouch, TMnet, Telecard, purchasers of iTalk Cards, Ring-Ring Card, Kadfon and those who purchased telecommunication facilities from Telekom Malaysia outlets all over Malaysia. Entries were also received from new subscribers of residential fixed line services, value-added services and TMclip services. Telekom Malaysia awarded a total of 2001 great prizes to the winners. The grand prize was a cash reward of RM100,000 and 1 million RealRewards gift points. The lucky winner of the grand prize was Che Puteh binti Md. Noor. Y.Bhg. Dato' Dr. Abdul Rahim Haji Daud, Deputy Chief Executive presented the prizes to all the lucky winners.

CARING FOR THE COMMUNITY

9 January 2001

Telekom Malaysia continued its noble tradition of providing assistance to pilgrims by contributing 50,000 sets of bags, water bottles, shoe bags, face towels and luggage tags, valued at RM611,700. In addition, the Company also provided the Malaysia Direct service for the convenience of pilgrims. The service, which has been provided since 1995, enables pilgrims to call home with call charges being borne by the local number dialled.

20 March 2001

Telekom Malaysia contributed RM365,000 towards the Telekanser 2001 Programme managed by Majlis Kanser Nasional (MAKNA). Telekanser 2001 was launched by His Majesty the late Yang di-Pertuan Agong. As the main sponsor for telecommunications facilities, the Company provided 30 Toll Free Lines, web hosting for MAKNA's homepage and the required technical assistance for the duration of the programme.

10 April 2001

MTN Networks, a wholly-owned subsidiary of Telekom Malaysia in Sri Lanka, was awarded the prestigious GSM Association World Award at the GSM Association World Congress held in Cannes, France. MTN Networks won the "GSM in the Community" category. Through a groundbreaking and unique community initiative – the "CHANGE" scheme – the Company beat 139 other contenders for the award. The scheme enables MTN Networks subscribers to donate a portion of the cost of every call to a fund, which in turn is matched and thereby doubled by MTN Networks. The fund will be used to address pressing community problems.

1 October 2001

The Telekasih Infoline was launched at Sunway Lagoon Resort Hotel by Y.A.B. Dato' Seri Abdullah Ahmad Badawi, Deputy Prime Minister. The Telekasih programme, initiated by the Nanyang Press Fund, aims to raise funds for the setting up of a dialysis centre in Setapak as well as provide assistance to the disabled, orphans and less fortunate members of society. Telekom Malaysia's sponsorship of the 600-86-7722 Infoline is valued at RM100,000. With this contribution, the Company has again played its social role as a caring corporate citizen.

**13 October 2001**

The Paya Indah Wetlands was officially launched by the Prime Minister Y.A.B. Dato Seri Dr. Mahathir Mohamad on 13 October 2001. Telekom Malaysia presented a 'Mock-Cheque' for RM750,000, as sponsorship for the management and upkeep of the four hippopotami imported from Botswana for the Paya Indah Wetlands. The sponsorship is for a period of three years. The hyppo is the mascot for Telekom Malaysia's Lifestyle Portal, BlueHyppo.com.

PENEMPATAN BARU HIPPO TAJAAN TELEKOM MALAYSIA

With this sponsorship, Telekom Malaysia has moved to the forefront as a conscientious corporate citizen supporting and contributing towards the conservation of the environment and eco-systems in the country.

19 October 2001

Telekom Malaysia contributed RM50,000 worth of in kind contribution to the Malaysian Paralympic Council (MPC) for the 1st Asean Para Games held from 25 October to 30 October 2001 at the Bukit Jalil National Stadium. As the sponsor of telecommunication facilities, Telekom Malaysia provided telephone, fax and Internet lines, ISDN Lines, walkie-talkies and trunk radio in support of the Games. Six categories of disabled athletes participated in the Games. Telekom Malaysia as a caring corporate citizen, mindful of its social responsibilities, constantly makes contributions to the community in the areas of sports, welfare, education and social development.

**30 November 2001**

Kelab Telekom Malaysia together with 'Badan Kebajikan Islam Telekom Malaysia' (BAKIT) held a Majlis Berbuka Puasa for one hundred and eighty orphans from Ampang, Segambut, Ulu Langat at Telekom Training College. The main objective of this "Berbuka Puasa" was to share the spirit of Ramadhan with orphans. Y.Bhg. Dato' Dr. Abdul Rahim Hj. Daud, Deputy Chief Executive, joined in the breaking of fast with the orphans and handed out gifts to them. The gifts were sponsored by Telekom Malaysia, TMTouch, TMnet, Menara Kuala Lumpur and Utusan Malaysia. Y.Bhg. Dato' Dr. Abdul Rahim also presented a cheque worth RM43,000 as Telekom Malaysia's Wilayah Persekutuan and Selangor business tithe.

**7 December 2001**

Telekom Malaysia organised a "Majlis Berbuka Puasa" with members of the media at The Legend Hotel, Kuala Lumpur. 120 representatives from all local media and Telekom Malaysia's top management were present. The event was held to enhance rapport between Telekom Malaysia and the media.

No borders.
No class distinctions.
Only communication solutions
to benefit you...

... you and you.

Reaching Out, To You

We're there in the remotest villages.

Where there are **no roads** for **access**.

We're there in the **largest cities**.

where the roads are filled with traffic.

We're there to **keep you connected**.

One to one. Moment to moment. Virtually anywhere.

You'll never have a problem reaching out
because we are,
and always will be... here for you.
